

STM-04 Steam Ready. Ever Ready. Renn Steam Generator

Minimalistic.Simplistic.

STM-04 is a top graded steam generator - almost instant ready for use after switch-on. Designed to be a stand-alone, compact and portable steam generator, you can top up water at any point during operation. Never worry about burning your tank ever again with the low water level indicator.

The redesigned STM-04 is highly versatile - work with almost all testing equipments which requires steam input.

Integrated Process.

We further design the steam generator for continuous operation with additional add-ons. Available steam output at your finger tip.

Technical Specifications.

Power Supply Rating	230 V 50 Hz
Power	2.4 kW
Tank Capacity	3 litres
*Refilling Tank Capacity	10 litres
Boiler Tank Capacity	1 litre
Unit Dimension (LxBxH)	284 x 400 x 257 mm
Unit Weight	15 kg
Start-up time	3-5 minutes
Connector Hose	3 ft
